News Briefs from Washington.

Washington, Nov. 23.—Reports received here from Indiana indicate the cause for the large Republican victory in that state this year. Although the campaign of 1916 is just over, the Republicans are already organizing for the next election and are determined to sweep the state in 1918.

NOW THE TRUTH.

Information received here from the South shows that within the last year 120,000 colored people, chiefly laborers, have emigrated to Northern states. Late in the recent campaign the Department of Justice gave out a statement conveying the impression that Republican campaign managers were responsible for the northward drift of colored people and that the object was the control of elections in Northern states. The information now made public is that these men have come north because of the urgent demand for men and the high wages paid in munitions plants, in mines, in railroad work, and in general construction.

BUSY DAYS AHEAD.

Considerable interest is manifest in Washington over the election of a woman to the House of Representatives. Of course, the first Congresswoman, Miss Jeannette Rankin, will be the center of a great deal of attention. She is a suffragist, and, therefore, it may be expected that she will be greatly sought by a large number of suffragists who have ideas they wish incorporated into legislation. Her office in the House Office Building will undoubtedly be one of the busiest at the capitol.

MANY CHANGES IN SUPREME COURT.

It seems likely that the Supreme Court will undergo an almost complete change during the incumbency of Woodrow Wilson in the White House. Already he has appointed Justices McReynolds, Brandeis and Clark. Three Justices, White, McKenna and Holmes, have passed the age of retirement. Moreover, Justice Day is in very poor health and it is considered unlikely that he will continue on the bench four years longer. Out of nine members of the court, therefore, Woodrow Wilson will probably name seven during his eight years in the White House.

TRADE UNSOUNDNESS ADMITTED.

Last week the Department of Commerce advertised for ten men at \$10 per day and expenses to investigate opportunities for trade expansion in foreign countries. Thus it practically admits the unsoundness of our present trade. We now have an excess of exports over imports amounting to \$3,500,000,000 per year—unprecedented in the history of the world. During the recent campaign, the administration pointed to this as an evidence of Democratic efficiency. Republicans declared that it was merely temporary and would end with the war. Though the administration already has many men working in foreign lands seeking new markets, they want ten more men at government expense to find new markets—and at a time when our own people are having a hard time buying our own products.

EXCELLENT WAGON FOR FEED

Rack Arranged So That It May Be Pulled Back Over Hind Wheels—Much Time Is Saved.

Here is an excellent wagon for feed hauling. The feed rack is arranged so that it may be pulled back over the rear wheels, the hind part of the rack resting on the ground. Feed

may be unloaded from it in a fraction of the time needed to unload an ordinary wagon. It keeps the hay and the fodder in good shape. The ropes seen on the front of the rack are extended back over the fodder and when the rack is dropped a team is hitched to these ropes. A single pull and the ropes roll the load off on the ground.

A REMARKABLE STATEMENT

Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill. — "While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Insane Hospital."—Mrs. E. SHELDON, 5657 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, but with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.
